

Counter Terrorism Consultancy — Preparedness brought to life

Counter Terrorism Consultancy — Preparedness brought to life

How ready is your organisation to respond when it matters?

Nuparadigm's 360° Counter Terrorism Threat, Risk and Vulnerability Assessment brings together your people, security culture, protective procedures and measures and strategic relationships to identify gaps and strengthen preparedness.

Our subject matter experts bring deep lived experience and operational insight, turning complex challenges into clear, practical steps to compliance. We work alongside your teams to identify appropriate and reasonably practicable measures and procedures that support your responsibilities under the Terrorism (Protection of Premises) Act 2025—Martyn's Law.

The result: clear priorities, greater confidence and a shared understanding of how to protect people.

Talk to us about your organisation's preparedness.
